## Next Rehearsal: Tuesday June 16 5:00 PM

### Tech Week!

Welcome to Tech Week! This is it, folks. Our last three rehearsals, and the last chance to nail things down.

From here until show time, you should not see any big changes in the show. We know what we have to do, and we need to do it over and over until it's as perfect as it can be.

During Tech Week, in addition to putting that polish on your performances, we will be adding lights and sound. We will be working under the lights, so prepare to be warm. We may stop and start scenes, or run them again and again, to try out different lighting combinations and effects. It's all to get the show looking right.

*(Hey, who is this Patsy person? And why are we at her place?)*

We will be using the house sound system – the Stack-a-saurus has left the building. We will be turning on the stage mikes to see how the balance is. It's all necessary to get the show sounding right.

And we will work on smooth transitions from one scene to the next.

Your job? Know your part – what you say, where you are, what you sing, how you move, what to do with props, etc. You'll be great!
